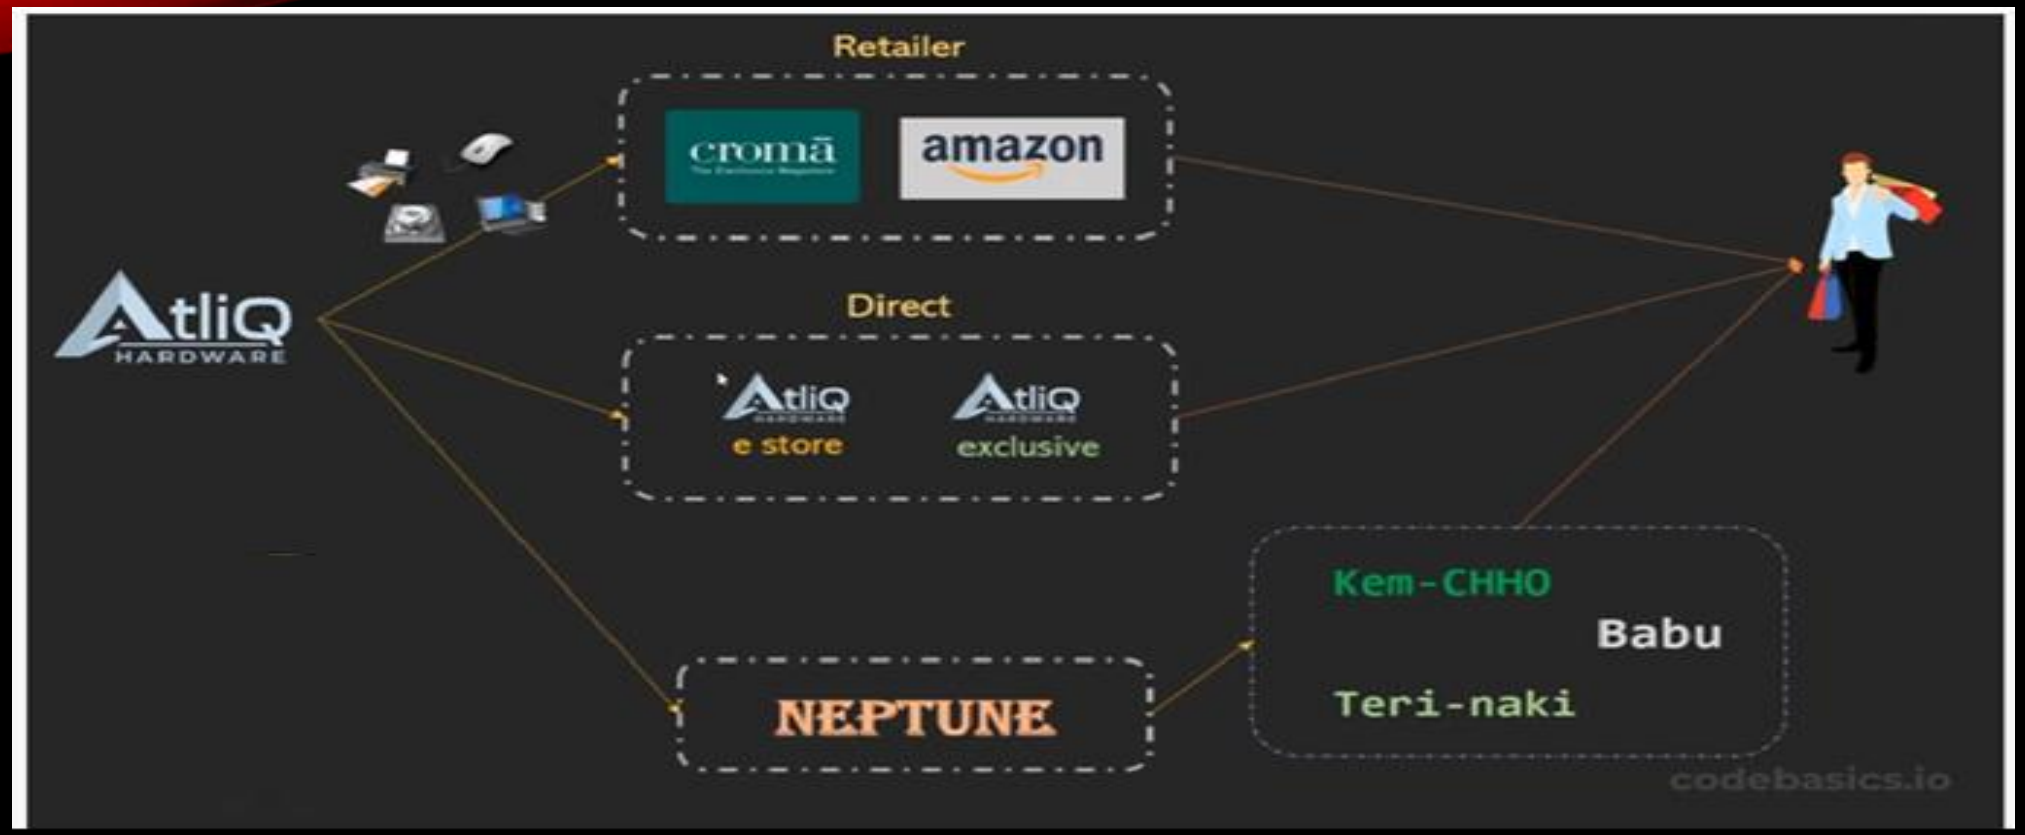
Company Overview

- AtliQ Hardware is a leading manufacturer of computer peripherals such as mouses, keyboards, hard disks, printers, and complete computer systems. The company supplies these products to major retail chains like Croma and Best Buy and prominent online marketplaces like Flipkart and Amazon. Functioning similarly to industry giants like Dell and HP, AtliQ primarily caters to B2B clients, with end consumers being individuals like you and me.

- In this project, I conducted an in-depth sales and finance analysis by transforming over 1 million raw sales records into meaningful, data-driven insights. Leveraging advanced Excel analytics, I performed data cleaning, aggregation, and visualization to uncover patterns in sales trends, customer behavior, and product performance etc., ultimately supporting strategic business decisions.

Operating Model



Solution Adopted and Process

- Power Pivot (Data import, combine & analyze large datasets)
- Data modeling (Build relationships between multiple tables)
- DAX (Create measures, calculated columns, KPIs)
- Power Query (ETL Tool)
- Pivot table (Data Visualization)
- Conditional formatting
